# The brand

Warm, editorial, crafted. Confident and premium, never corporate. Everything we publish should feel considered — like someone made a decision rather than picked a template.

The test before anything ships: could a competitor swap their logo onto this and have it still work? If yes, it isn't finished.

THE NAME

arcaniStudio

One word. Lowercase **a**, capital **S** — even at the start of a sentence. Never “Arcani Studio”, “ArcaniStudio”, or all caps.

TAGLINE

Digital Solutions With Purpose

FR — Des solutions digitales qui ont du sens

WHAT WE DO

Web and app development, end to end

Design, code, testing and deployment handled by one team. Clients own the code, the designs and the data on final payment.

WHO WE'RE TALKING TO

Founders and product leads

They are comparing agencies and want proof of craft. They respond to specifics, not adjectives.

# Primary variants

We recommend using the logo on a dark or light background. In the case of a photograph, it is essential to keep the logo sufficiently legible in relation to the background image.

The smallest size allowed for printing and online use is based on the height of the logo.

Smallest logo size 24px / 8mm

# Colour Palette

Only the colours listed in the arcaniStudio brand guidelines may be used in the visual style. Others that are not listed are prohibited.

Brand Orange is the single accent — it carries roughly five percent of any layout. Deep Orange is its readable counterpart, used for text and solid buttons where white sits on top.

Depending on the type of material, you can opt for a light or a dark mode. For the dark mode, Ink is used in the background; for the light mode, Cream.

## Brand Orange

CMYK: 0, 62, 97, 0  
HEX: FF6207  
RGB: 255, 98, 7

## Deep Orange

CMYK: 0, 77, 100, 19  
HEX: CE3000  
RGB: 206, 48, 0

## Ink

CMYK: 0, 0, 0, 96  
HEX: 0A0A0A  
RGB: 10, 10, 10

## White

CMYK: 0, 0, 0, 0  
HEX: FFFFFFFF  
RGB: 255, 255, 255

## Cream

CMYK: 0, 1, 3, 3  
HEX: F8F6F1  
RGB: 248, 246, 241

# Shades Palette

The colour shades help with design variety and can be used freely for sub-elements in communication.

# Typeface

Our main font is Switzer (Designed by Indian Type Foundry). We use it wherever possible. Switzer is a neutral grotesk with a wide variable range that stays legible at caption sizes and holds its character in display settings.

Reckless Neue is the accent serif — one phrase per layout, never body copy. If neither font is available, use any system sans-serif.

Unleash your  
digital potential

We lead digital projects built  
for measurable results

Need a quote?  
Book a 30-minute call.

What you get at the end of  
every project:

On final payment the code, the designs and the data belong to you — no license traps, no technical dependency, and 30 days of post-launch support included.

# Key Elements

These are the parts that make a layout recognisably ours. Used together they carry the brand without the logo having to do the work.

Each element is defined once, in the website repository, and reused — never redrawn by hand for a single piece of communication.
